

Pre-Flight Privacy Checklist

Wedding & Event Videographer

Complete this checklist before every drone flight over crowded outdoor event venues.

Job Details

OPERATOR NAME

DATE OF EVENT

VENUE / LOCATION

CLIENT / COUPLE NAME

LICENCE / RPA REG NO.

WEATHER CONDITIONS

1 — Consent & Authorisation

- ☐ **Written consent obtained from the couple / event organiser**
Consent form signed confirming authorisation for aerial coverage of the event.
- ☐ **Venue owner / manager consent confirmed**
Written permission obtained from venue management to fly over the property.
- ☐ **Guests notified of drone filming**
Signage at entry points displayed; MC or host announced drone use at event.
- ☐ **Third-party property boundaries checked**
Neighbouring properties identified; consent or notification completed where required.
- ☐ **Privacy Act obligations explained to client**
Client understands footage captures personal data of guests who have not individually consented.
- ☐ **Restricted filming zones agreed with client**
Areas where filming is prohibited (e.g. ceremony interior, bridal suite) documented.

2 — No-Fly Zones & Airspace

- ☐ **Airspace checked via CASA tool (Airshare / OneSky)**
No restricted, prohibited or controlled airspace within planned flight area.
- ☐ **NOTAM reviewed for event date and time**
No active NOTAMs affecting the venue.
- ☐ **Proximity to aerodromes confirmed**
5.5 km radius from controlled aerodromes checked; CASA authorisation obtained if required.
- ☐ **Flight within visual line of sight (VLOS)**
Operator maintains unaided visual contact with RPA at all times.
- ☐ **Operating height at or below 120 m AGL**
Maximum planned altitude does not exceed 120 m above ground level.
- ☐ **Crowd density assessed — standard exclusion zone maintained**
RPA not flown over a populated area without specific CASA authorisation.

3 — Privacy Risk Assessment

- ☐ **Crowd / guest density mapped for each planned flight window**
Flight times avoid peak congregation moments (ceremony exit, first dance, cake cutting).
- ☐ **Flight path designed to minimise incidental facial capture of guests**
Wide establishing shots preferred; close passes over seated or stationary guests avoided.
- ☐ **Children present — additional safeguards applied**
Extra care not to focus on or closely capture minors; parental consent considered.
- ☐ **Media / press photographers notified and co-ordinated**
Ground photographers briefed on drone flight windows to avoid unsafe proximity.
- ☐ **Neighbouring residential properties assessed**
Overlooking windows, gardens and pools identified; flight path adjusted accordingly.

4 — Data Collection Limits

- ☐ **Footage limited to agreed event coverage scope**
Camera not directed at off-site areas beyond what is incidental to the brief.
- ☐ **Post-production blurring plan confirmed for non-consenting guests**
Operator or editor will review footage; identifiable third parties to be blurred if required.
- ☐ **Audio recording disclosed to client**
Client informed onboard microphone may capture guest conversations.
- ☐ **Live-streaming not permitted without separate consent**
No real-time broadcast of aerial footage without explicit written consent from organiser.
- ☐ **Thermal or enhanced sensors not deployed**
Only standard RGB camera used unless additional consent and justification obtained.

5 — Data Handling & Storage

- ☐ **SD card / storage media is blank before flight**
No residual footage from previous engagements on recording media.
- ☐ **Footage transferred to encrypted storage within 24 hours**
AES-256 encrypted drive or approved cloud storage with access controls.
- ☐ **Retention period agreed with client**
Footage deletion schedule documented; raw files not held beyond agreed period.
- ☐ **Raw footage access restricted to authorised personnel only**
Access log maintained; sharing with editor or third parties requires written consent.
- ☐ **Footage not shared on social media without consent**
No public posting of event aerial footage without written approval from couple / organiser.

6 — Equipment Pre-Flight Check

- ☐ **RPA registration / markings current and visible**
- ☐ **Battery charged at or above 80%; spare batteries checked**
- ☐ **Propellers inspected — no cracks or chips**
- ☐ **Return-to-home altitude set above tallest obstacle at venue**
- ☐ **Gimbal and camera calibrated**
- ☐ **Remote ID broadcasting confirmed (if required)**
- ☐ **Geofencing / obstacle avoidance configured for venue layout**

7 — Post-Flight Actions

- ☐ **Footage reviewed for unintended personal data capture**
Flag footage showing identifiable non-consenting guests; log items requiring blurring.
- ☐ **Incident log updated if any privacy issue arose**
Record complaints, near-misses or unplanned captures; report to client if required.
- ☐ **Client provided with copy of this completed checklist**
Signed copy retained by operator for minimum 7 years.

Operator Sign-Off
